MANN'S
PARCHMENT COPYING PAPER.

(Trade-Mark Registered in U. S. Patent Office.)

This Parchment Paper is **MUCH STRONGER** and shows a **CLEARER COPY** than any other ever made for the purpose. The ink is **LESS LIABLE TO SPREAD** and the paper can be written upon with a pen.

DIRECTIONS FOR COPYING.

Place a piece of blotting-board under the leaf of Copying Paper; then, with brush, wet the leaf. Take off surplus water with another sheet of blotting-paper; then place the written letter on the leaf, (leaving the blotting-paper under the leaf, to take up any excess of water that may yet remain;) place it in the press, and, in ten or fifteen seconds, a perfect copy will be secured.

The leaves WILL DRY AS SMOOTH AS SILK, if the book is placed in the press after copying.

☞Place oil-sheets between copies just made to prevent blending or setting off.

Another Process when many letters are to be copied.

Procure a tin or iron box, with lid, to hold 20 blotting-pads.—(Boxes furnished, if desired.)

Dip half the lot of blotters in water; let them drain off a few moments; then place a dry blotter between each wet one; give them a few moments squeeze in Press and they will remain wet for three days; then take an oil-sheet; place it to the left; then lay a wet blotter; then turn leaf of Copying over on blotter; then lay your letter on; then another oil-sheet, and so on; and you can copy all your letters at one time; thereby saving time. With a little care and experience, at first, as to wetting, you will be so well pleased, as never to return the old way.

To copy TYPE-WRITTEN LETTERS, the leaves require MORE MOISTURE than they do to Copy Letters written with PEN AND INK.

The Director of the Mint,

Washington, D. C.

Sir:

Referring to the concluding paragraph of your letter of August 30th, [F], our records show J. B. Menahan to have been correctly compensated on the roll June 14-30, 1921. He was paid for 14 7/8 days regular time at $4.00 per day, $59.50, having been absent without pay one hour. His bonus was for this same time $11.40. He was paid $7.25 for one day. 4½ hours overtime. Total $76.15.

Respectfully,

Superintendent.

September 13, 1921

The Director of the Mint,

Washington, D. C.

Sir:

I am in receipt of a notice of settlement of ordinary expense account, under date of September 9, 1921, for the period of January 1 to March 31, 1921.

This notice of the Auditor bears the following:

Overpayment to T. F. Sawlon, Feb. 1-15, temporary helper, suspended. $1.00

We do not understand this as the records here show that Mr. Sawlon was correctly paid $52.00 for thirteen days regular work, bonus $9.97, and $6.75 for 13½ hours overtime--or a total of $68.72. Will you please take up this matter with the Auditor and advise me in the premises.

Respectfully,

Superintendent.

The Director of the Mint

Washington, D. C.

Sir:

Referring to your letter of the thirtieth ultimo, (F), discussing the accounts of this institution, I enclose duplicate of receipt as made and given by the incoming to the outgoing Superintendent.

The figures furnished for Nickel 426,018.54 and for Bronze 3,937,938.64 were correct, the figures 560,935.50 Nickel being the Coiner's holdings.

I understand that the Bookkeeper directed the attention of the Settlement Commission to the fact that the Coiner's surplus was twice stated in the receipt and to the omission of $184.20 reimbursable loss on recoinage.

Respectfully,

Superintendent

Sept.16, 1921.

Hon. R. J. Grant,
Superintendent U.S.Mint,
Denver, Colo.

Sir:

Referring to Director of the Mint's letter under date of September 13, 1921 requesting further information as to Annual Report of the Assay Department for the fiscal year 1921.

There is no analogy between the number of samples, of assays and of reports. A single report might require over a thousand samples and assays and again a report is made from one sample and one assay. We take not less than two samples from each bar of Pittman silver received and make not less than one assay on each sample. When we make a single report on a deposit or purchase, we designate it as one report regardless of the number of bars, samples or assays which constituted the same.

Respectfully,

F. Eilhers

Sir:

Referring to your letter of the 2d instant, touching the amount of Bond to be given by the Weigh Clerk here, I wish to express my unqualified agreement with your statement, that he should not be required to give bond in excess of that furnished by the Weigh Clerk of the New York Assay Office, or for that matter, the amount given by the Weigh Clerks of the other Mints.

I had supposed, naturally, that the bonds for similar work in all the Mints and the New York Assay Office, were alike in amount, and I would be pleased to have you advise me of any other instances existing wherein Denver Mint Clerks and Employees are furnishing bonds in higher amounts than those required for corresponding service at the other institutions.

I am advised that upon the organization of this institution as a Coinage Mint, the amounts of bonds for the Superintendent, Assayer, Superintendents of Melting and Rolling and Refining, Chief Clerk, Cashier and Weigh Clerk were designated by the then Director of the Mint, and since that time advance in the amounts given by several of the foregoing was also ordered by the Director.

The Assayer and Weigh Clerk have always been required to furnish bonds in amount of Ten Thousand Dollars, ($10,000.00) therefore, a bond in this amount was asked by me for execution by Mr. Brierley upon his promotion to the position of Weigh Clerk.

Director of the Mint,
Washington,

Sir:

In regard to shipment of $125.00 in coin, authorized by the Treasurer's letter of Oct. 6th and classified as mutilated coin, this office desires further instructions regarding treatment of same to correct payments and records.

The Federal Reserve Bank of Dallas was paid Oct. 13th by Bullion Fund check for the total subsidiary silver coin at bullion value. The Bank was paid by Minor Metal Fund check Nov.3rd for total bronze and copper metal at the rate of 14¢ and 15¢ per lb. respectively. The above purchases are stated on forms 5193 for October and November forwarded to your office.

As you instructed, this shipment of circulated coin is to be classed as uncurrent coin for recoinage in place of mutilated, please advise from what source the Minor Metal Fund checking account is to be reimbursed, and also from what fund the bank shall be paid for face value of the coin.

Your letter of Nov. 30th directs that the shipment shall be treated as uncurrent coin and to make remittance to the Dallas bank for the amount due them.

It is not clear to this office how the Bullion Fund can pay for uncurrent silver coin for recoinage and credit Silver Recoinage Bullion. No transfer of funds letter has been received for this shipment.

Respectfully,

Superintendent.

The Supervising Architect,
Treasury Department,
Washington, D.C.

Sir:-

I have to state that the roof of this building is in bad condition in a number of places, some of which are now causing leakage, and should be repaired before the winter weather sets in. I have accordingly obtained the two enclosed proposals from competent parties to do this work and recommend the acceptance of the bid of the Monarch Manufacturing Company, in amount $665.00, the lower of the two received, and which I consider reasonable in view of the amount of work to be performed.

As this work is urgently required, will you kindly wire me if this proposal meets with your approval in order that the work may be undertaken at the earliest possible date.

Respectfully,

Custodian.

Sir:-

I have to recommend that the following changes be made in the personnel of this institution:

J.J.Donahue and Samuel R.Whitaker,at present employed as Night Foremen at $6.00 per day, be changed to Melters at $5.00 per day, as formerly, effective January 1st,1922.

John A.Lindhard,at present employed as assistant foreman at $5.50 per day, be changed to melter at $5.00 per day,as formerly, effective January 1st,1922.

W.H.Johns,at present employed as temporary skilled workman at $5.75 per day,be changed to temporary helper at $4.50 per day, as formerly, effective January 1st,1922.

These employees were increased to compensate them for extra responsibilities during the rush on dollar coinage and as we have now returned to normal work,I feel it is proper that they should be put on their former pay status.

Respectfully,

Superintendent.

The Director of the Mint,

Sir:-

I have to submit the following answers to the questionnaire forwarded with your letter of the 13th instant relative to the purchase of fuel oil for the use of this institution:

Answer No.1. Gas oil; first distillate.

Answer No.2. Approximately 2000 barrels of oil will be used from January 1st to June 30th, 1922. Purchase to be made under annual contract.

Answer No.3. An average of 384 barrels carried in storage in two steel tanks adjoining power plant of building, the oil being drained into same from tank wagons of contractor.

Answer No.4. About May 1st of each year competitive bids are solicited from the three large oil companies in this city - the Continental Oil Company (Standard), the Texas Company and the Sinclair Company; bids are forwarded with recommendation as to acceptance to the Director of the Mint, Washington, who, through the Secretary of the Treasury, makes award. No responses, however, are usually received except from the Continental Oil Company which seems to be the only one that possesses tank-wagon facilities for delivering the oil to the mint, there being no other large consumer in this city so far as I am aware.

Answer No.5. Present method has worked satisfactorily since mint has been in operation; deliveries are made as requested upon requisition from time to time as the oil is needed; the service is prompt and satisfactory, and in view of all the circumstances do not contemplate that any improvements could be made at the present time.

Answer No.6. Doubt whether a central agency would result in a lower price, but am not in possession of sufficient data to say definitely.

Answer No.7. Forms enclosed.

Answer No.8. Do not possess any information as to the methods in use save at this institution.

Answer No.9. See answer to No.8.

Answer No.10. Believe contracts for all supplies should be concurrent with the appropriations - July 1st to June 30th of each year.

Sir:

Referring to your letter of the 22d instant (P) I would say an account will be stated and forwarded to the Bureau at the close of the current month, against the Special Fund "Charges on Silver Dollar Bullion sold", covering the value of alloy copper employed during the six months from July 1st to December 31st, 1921.

For the five months ending November 30th, 1921, this amounts to slightly less than $13,000.00. With the reimbursement of our Contingent Fund for the alloy used during the first half of this fiscal year, I believe we will have sufficient contingent money to get through the year by the exercise of very strict economy and postponing, perhaps, the purchase of such machinery and appliances as might otherwise be deemed desirable to acquire this year.

Touching the purchase of twenty-four (24) trucks soon after the inauguration of capacity coinage of Standard Silver Dollars, I would explain that authority to secure these trucks was understood to be included in the urgent demand for speedy coinage, both by letter and verbally, as well as by telegraphic instructions to expedite preparations for this coinage. The trucks were imperatively required while on the 16 and 24-hours' basis, to take care of the accumulation of ingots, blanks and coin boxes in the several Departments.

Sir:

I am returning herewith bill of the Denver & Rio Grande Western R. R. Co., covering freight on sweeps from this institution, shipped to smelter at Leadville, Colorado.

The discrepancy in weights of these sacked sweeps at Denver and upon receipt at Leadville is largely attributable to the fact, that just prior to the shipment a slight leak of water occurred in the sweeps cellar, the bags taking up therefrom considerable moisture as proven by the smelter's heavy moisture report over the percent moisture found at the Mint upon test before this leak occurred.

The Director of the Mint,
Washington,
D. C.

Sir:

Referring to your letter of the 18th instant (F) returning for amendment this Institution's Voucher for extra labor expended in December, upon the manufacture of Standard Silver Dollars, I am returning herewith said Voucher with total of "increased compensation" amounts, $9,053.44, credited the "Special Fund", as directed by you - inasmuch as this sum was embraced in the accounts stated against the Silver Dollar Trust Fund for the first half of the current fiscal year. This will leave a debit balance against our Wages Appropriation available of $2,789.99.

At the close of January, under your ruling, our Wage Appropriation, with the $10,000.00 prohibition of budget requirement, will have only the narrow leeway of about $3,100.00 for the remainder of this fiscal year, to meet breakdown, Sunday and other exigency overtime work.

I would explain that, under your letter of instructions, dated May 6th, 1921, "that monthly accounts covering actual expenses incurred in this work, also cost of alloy copper used, should be rendered for reimbursement", etc, - it was construed that the charge procedure would follow, or be akin to, that customary in "foreign" coinage; but subsequently you advised me that no contingent expense might be charged, and only the overtime expense for our regular force, in addition to temporary payees.

As, under our construction of your advices and analysis of the Trust Fund provisions, the latter was to bear all expenses of extra labor in connection with the Dollar Coinage, we thought proper to include "bonus" payments to temporary workmen in submitting vouchers for reimbursement.

I found, upon assuming the Superintendency here, that the Melting and Refining, and Coining Departments, especially the latter, were exceedingly short, and unwisely so, I concluded after investigation, of regular employees, and that it was the custom, when temporary employees were not carried, to use in these Departments, especially the Coining, watchmen, blacksmith, carpenter and boiler man, depleting the efficiency of the guard and machinery branches at such times.

At present, if the dozen retained temporaries must go, we will be materially crippled. With large quantities of coin steadily arriving from the Reserve Banks I have found it necessary to keep two temporary workmen, under the Cashier's supervision, constantly counting circulated coin, which is thereafter placed in storage.

I indulge the hope, Sir, that you may be enabled to relieve this untoward situation by arranging the availability of the $10,000.00 Budget deduction from our current Wage Appropriation, or by authorizing the continued employment of necessary, indeed imperative, temporary help during the contemplated resumption of Standard Silver Dollar coinage - their compensation, aside from bonus, to be taken care of by the Trust Fund as heretofore.

In order, Sir, that I may know what disposition to make at the close of January of the few temporaries remaining, may I ask that you kindly wire me your conclusions and desires in the premises as soon as practicable after the receipt of this letter.

Respectfully,

Superintendent

Sir:

To enable me to meet the expenditures of this institution for the month ending March 31st, 1922, I have to request that you cause a requisition to be drawn upon the Secretary of the Treasury, against the appropriations made for the support of this Mint for the fiscal year ending June 30, 1922, in the following amounts, with which I am to be held accountable under my Bond dated June 13, 1921:

Salaries of Officers and Clerks	$4,000.00
Wages of Workmen	7,000.00
Increased compensation allowed	2,000.00
Contingent Expenses	3,000.00
" " (Independent Treasury)	1,000.00
Total:	$17,000.00

	$15,385.74

Respectfully,

Superintendent.

February 28th, 1922.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to recommend that George Borstadt, Jr., who resigned, without prejudice, as a melter at this institution with compensation at the rate of $5.00 per day, on September 20th, 1921, be reinstated here with the same designation and compensation effective from March 1st, 1922.

Respectfully.

Superintendent.

Denver Colorado March 1st 1922

Director of the Mint

We can deliver thirty to thirty five thousand dollars per day and keep within wage appropriation. In order to deliver seventy five thousand dollars per eight hour day would have to increase force thirty men amounting to thirty five hundred dollars per month. Can these extra men be charged to Pittman Silver dollar fund?

Our unencumbered balance in the contingent fund amounts to twelve thousand three hundred and forty dollars to cover four months.

Our wastage will amount to about five thousand dollars leaving seven thousand dollars which will not be sufficient to run us through if we increase output. Can we charge wastage to silver dollar fund?
Treasurer urges speedy shipments new dollars to Federal Reserve banks. Can you expedite returns on special assay coins forwarded?

Sir:-

I regret to have to report that John H. Presnell, helper at this institution, died suddenly last evening from heart disease. Mr. Presnell had been employed at this institution since January, 1914, and was always faithful and efficient in the discharge of his duties.

March 3rd,1922.

The Director of the Mint,
Washington, D.C.

Sir:-

Referring to your letter of the 23rd ultimo (F), I am returning assay report No.266 and Form No.474a corrected as requested.

The Golden Cycle Mining Company has been requested to approximate as nearly as possible in affidavits the silver content of its deposits and the Liberty Bell Gold Mining Company has been asked to file new affidavits covering all deposits since September 27th,1921,following the lines of the form enclosed by you. Under charges made upon assay reports Nos.363 and 366 will be duly deposited.

In re voucher No.100,November account,favor of the Rocky Mountain Envelope Company,I would say that at the time of this exigency purchase we were using about 5,000 of these little envelopes weekly, and as it was not expected that the supply asked from Washington could possibly reach us within a month,it was thought expedient to order sufficient to cover such a period. This envelope was imperative to the handling expeditiously of samples from the ingot room and from the silver purchase bars arriving in large numbers at that particular time.

Respectfully,

March 4,1922.

Director of the Mint,

Washington,D.C.

Coinage nineteen twenty two silver dollars to close March first one hundred seventy five thousand.

Superintendent.

Charge U.S.Mint at Denver.

March 4th, 1922.

The Treasurer of the United States,
Washington, D.C.

Sir:-

Referring to the very large shipments of coin from Reserve banks and their branches to this institution, I would advise you that many important transfers have reached Denver on Sundays and holidays and I have heretofore acceded to the request of Post Office officials to accept these shipments on such days. It has necessitated extra expense for Sunday work and has not accorded with my ideas of prudent safe-guarding of these premises on Sundays and national holidays. I do not like to have our rear entrance open at such times when only the customary small guard contingent and a clerk or workman are present.

Would you kindly instruct the Reserve banks that shipments be not made unless they can ordinarily reach this city on days other than Sunday and national holidays. I am also advised that this is the desire of the Post Office which handles this coin in transit.

Respectfully,

Superintendent.

Sir:-

I recently solicited proposals by the American S & R Co., Leadville Plant, and of Goldsmith Bros. S & R Co., Chicago, to purchase two lots of this mint's sweeps as follows:

Gross Weight	No. Bags.	Fine Ozs.Au.	Fine Ozs.Ag.
13,318	182	108.601	1,161.41
55,685	763	18.610	4,418.66

I enclose proposals from these concerns and would recommend the acceptance of that from the American Smelting & Refining Company which is favorable far and beyond that of the Goldsmith people.

If this recommendation is approved, will you kindly return these proposals which will later accompany the smelter's returns in liquidation of the two lots.

Sir:-

Referring to your authority for reimbursement of wastage for the fiscal year 1922 which may be found due to silver dollar coinage - from the special silver dollar fund and advising me to inform you as early as possible what said wastage will amount to, I have to say that up to today it is 3640. fine ounces (Coiner's Department). It is my purpose to continue coining about up to the beginning of settlement which will increase this wastage inappreciably.

I write to ask if the special dollar fund could be utilised to pay this wastage directly leaving any small addition to be taken care of by our contingent fund? There will be no wastage in the M & R Department. This arrangement of liquidating the wastage, if feasible, would enable us to promptly care for our supply encumbrances.

Respectfully,

Sir:-

Referring to your telegram of March 4th suggesting the temporary employment at this institution of Mr.W.K.Shelland of your office - I find that I can utilize the services of Mr.Shelland in a clerical capacity during these vacation months.

He advises me that he is benefiting by the Colorado air and sunshine and would like very much to remain here temporarily if agreeable to you.

As Mr. John T.White is to continue on detail to the local Civil Service Board, Mr. Shelland will fit into our work very nicely for two or three months.

I therefore am pleased to recommend the detail of Mr.Shelland to this mint from July 1st,he to be paid here at the rate of $1,800.oo per annum from our appropriation for salaries,if a"detail" will permit this.

Referring to your letter of the 28th ultimo (F) transmitting Voucher of the Denver and Rio Grande Western Railroad Co., covering transportation of ores and concentrates from this Mint to the smelter at Leadville, I have to explain, that the variations in weights of the material here and upon receipt at Leadville were carefully investigated upon the smelter's notification, at time the sacks of sweeps were received by it and found due to drying out in transit.

The material at time of Mint weighing evidenced considerable water content, which was obviously eliminated in loading and hauling at Denver by the Transfer Company and by the dry air in closed car from Denver to Leadville.

The Supervising Architect,
C/o Director of the Mint,
Washington, D. C.

Sir:

Upon the recent visit to this Institution of your representative Mr. Lee Ullery, I took up with him the matter of having the granite and other work around certain windows in this building cleaned, as their disfigurement by reason of acid fumes from the refinery and oily smoke from the ingot melting room was very glaring.

Mr. Ullery entirely agreed with me as to the advisability, indeed necessity, of having these sections of the [illegible]ned granite renovated, promising to recommend to you that the work be performed and suggesting that in the meantime I endeavor to secure proposals from parties competent in this line of cleaning.

I took up the matterwith some sand blast people, who explained that the work was not of sufficient scope to justify the scaffolding and other preliminary preparations which it would require; however, I finally found a man of good repute and considerable experience in this line and went over the matter thoroughly with him. I enclose his proposal,in amount $[illegible]05.00, and would recommend its acceptance and that the cleaning, under your direction and authority, be undertaken as soon as possible. This man is William Milan, 4339 Elizabeth Street, Denver.

Referring to your letter of the 19th instant, you are advised that the abstract sheets for June carry properly the number of deposits for the past fiscal year.

The Assayer's reports of deposits I find did not include gold and silver exchange bars, grains bars, bullion assays, Supt's sweeps bars, redeposits and return bars.

Form No.61, it appears, was predicated upon the number of assay certificates and not separate meltings as should have been done. In future the abstract sheets will govern the different reports on this item.

Dear Sir:-

In reference to letters from Acting Director under dates of Aug. 19th, and Sept.8th, I wish to state that the trouble experienced in checking is no doubt due to the fact that the first two items of the report I submitted are not correct.

I find that in attempting to segregate the fine silver purchases from the other deposits I have confused so called silver dollar bullion deposits with fine silver purchases, I here with submit a correct list.

The first item "Deposits (including purchases)" covers:-

1908	Gold Deposits
1321	Silver Deposits (one dollar per ounce paid)
82	Gold Exchange
7	Silver Exchange
8	Supt. Swgep Bars
12	Grains Bars
12	Bullion Assays
1	Return Bar
2	Rejected Bars
3353	

The second item "Fine Silver Purchases (Pittman)" covers:- 156 lots, containing 10,748 bars of fine silver purchased. 3,353 plus 156 gives 3,509 the total deposit numbers used during the year while 3,353 plus 10,748 gives 14,101 the total number of deposits handled during the year.

In regard to omission of alloy charges oncertain deposits as cited in the letter from Acting Director under date of September 5th.It has not for several ypars been customary to impose an alloy charge on gold deposits assaying 992 fine or above. I have been unable to find any thing in the Rules and Regulations contrary to making the regular alloy charge, nor could I see any logical reason why the charge should not be imposed, but as it had not been customary to do so I have followed the custom.

With the Acting Directors letter as my authority I will here after impose the regular alloy charge on all such deposits.

Very truly yours,

A. E. Koppenhaver

Assayer.

Sir:-

Referring to your letter of the 29th ultimo, I would explain that while the proposed copper purchase is for gold or silver alloy, in view of your letter of May 11th (F), and especially its concluding paragraph, I deemed it preferable to purchase this copper from the very adequate balance in our Minor Coinage Metal Fund, and to re-imburse this fund monthly from the Contingent Fund for the value of copper employed in dollar coinage.

This would be a continuation of our authorized practice for an extended period and assure the retention of a minor coinage copper stock for any emergency coinage of nickels or cents, besides precluding the possibility of a material copper balance at the close of the fiscal year purchased from the Contingent Fund when, as is frequently the case, our concern is to make our contingent money round out the year's obligations.

However, this thin bridge copper alloy will be soon required and should you still prefer that it be liquidated entirely at time of receipt by a Contingent Fund check, I will make a special requisition for sufficient money to promptly defray same.

Awaiting your further instructions on this point, I remain

Respectfully,

R.J.Grunt, Superintendent,

The Supervising Architect,
Treasury Department,
Washington, D.C.

Sir:-

It is frequently necessary to consult the drawings for the superstructure of this building when your inspectors come here to look into the matter of making any changes, and the set now on file is in such a bad and mutilated condition that it is almost impossible to read the details on many of the sheets. This is the original set received here by the superintendent of construction in 1897 when the building was in course of erection and the sheets are numbered from 1 to 38. If it is possible to supply a new set for our use it would serve a very useful purpose and I would appreciate your kindness in the matter.

Respectfully,

Custodian.

Sir:-

I am in receipt of a request of the Superintendent of the Mint at Philadelphia to be advised as to the needs of this institution in the matter of coin bags. I have a sufficient supply of the silver dollar bags for the ensuing six months but a very small supply of the size required for gold coinage, and before answering the inquiry above referred to, may I ask if it is probable that you will require any gold coinage at this institution during the present fiscal year or whether we shall continue to work on the standard silver dollars as at present. With this information I can form a much more intelligent estimate of our requirements in the matter of sacks than is possible at the present time.

Respectfully,

Superintendent.

The Supervising Architect,

Sir:

I have to advise you that under date of October 27th, the Director of the Mint informed me, that after consultation with the Secretary's Office, it was decided to reject all the bids submitted, for the purchase and removal of the Corliss engine plant which it was necessary to dispose of preliminary to the execution of your plans for utilising the engine room here, in the installation of vault space so imperatively required.

The Director further instructed me to advertise until November the fifteenth, in local papers, the sale of this machinery and to circularize this proposed sale to possible bidders at San Francisco, Kansas City, etc. This has all been done and the proposals that may be received are to be opened at Noon, November twenty-fifth, and recommendations for an award forwarded to the Department that day.

The Director further suggests, that in order that this vault space may be made available at the earliest possible moment, I ask you to proceed as expeditiously as possible with your plans for the vault, without waiting until the machinery is actually removed.

I will very much thank you to do this and again assure you, that our needs for this additional vault room are exceedingly urgent.

Sir:-

A large number of the glass eyes in the manhole covers over the coal vault and adjoining rooms in the sub-basement at the east end of this building have become broken or knocked out of place from time to time and when it rains or snows the water drips into the rooms below causing considerable annoyance. It is estimated that between 275 and 300 of these glasses will have to be installed to fill these empty holes and I have obtained the enclosed proposals for the necessary material, but have been able to obtain only one for putting them in place. This proposal is from Mr. Steingoetter who proposes to furnish 300 of the glass eyes and put as many in place as may be necessary (between 275 and 300) for the sum of $143.75. As this seems a very reasonable sum for the work involved, I would recommend that his proposal be accepted and trust the same will meet with your approval as it is very desirable to have this work done as soon as possible.

Sir:

Referring to your letter of the 8th instant (F) I wish to assure you, that the laudable purpose of the Bureau in submitting for consideration forms designed for use in the Coining Department, was fully appreciated here and that we always esteem the privilege of analysing, and adopting as far as practicable, suggested changes for the betterment of our recording and accounting system in any branch of the Mint.

Upon receipt of the forms covered by your letter of October 20th they were promptly and conscientiously canvassed, pro and con, and as I wrote you were regarded as probably especially pertinent to the more varied scope of the Philadelphia Mint, while our current forms, which embody the proven safeguards and necessities of sixteen years' development, seem to take care of all the essential data carried in those contemplated revisions, and to require materially less clerical effort in their preparation.

However, I understand your desire to standardize the records of the several Institutions and if those new forms are made effective at the Mint at Philadelphia, we will most cheerfully adopt and adhere to them to the measure of our ability.

Answering your inquiry as to the weighing of metals, I would explain, that each branch of the operative departments is thoroughly checked by weighing, at the close of the day's work, all metal upon which it has been engaged during the day.

As requested I am returning herewith your notated blanks.

Respectfully,

R. J. Grant

Sir:

Pursuant to your authority proposals to purchase certain machinery at this institution preliminary to the installation of a large storage vaul, were invited by advertising four times, between November 1st and 15th, in the Rocky Mountain News and the Denver Post, of this City, and also by circularizing possible bidders in Colorado and other States suggested by yourself.

As per announcement the proposals received, but two (2) in number, were opened in the presence of the bidders at Noon, this day, and were as follows:

Name of Bidder	Amount of Bid	Certified Check
The Colorado Iron & Metal Co.	$6,255.40	$626.00
The Denver Metal & Machinery Co.	$5,760.00	$576.00

I have to recommend the acceptance of the proposal of The Colorado Iron & Metal Co., the bidder of the two.

I enclose both proposals and the certified check of The Colorado Iron & Metal Co. I am returning the certified check submitted by The Denver Metal & Machinery Co. to that Company.

I deem it not improper to again suggest, that such preliminary action as may be necessary to the actual undertaking of this vault work be expedited as far as possible.

As you direct, the abstract sheets will not in future carry advance payments on bullion deposits.

In re voucher No.25 favor of the Denver Fire Clay Company, I would say that if the proposal specified a 1% discount for payment in 10 days this was in some manner overlooked in passing the voucher for payment. It would amount to 44 cents which will be made good if you so direct.

Referring to your letter of the 6th instant (F),you are advised that I forwarded the Dixon Crucible Company in September,last,one of our special Mint No.80 graphite crucibles in order that they might meet our exact requirements which previous correspondence appeared not to make entirely clear. A copy of the bill of lading (express) was mailed the Bureau as usual.

As the Dixon Company had,at my request, submitted at its transportation expense as a gift a crucible which it believed would most nearly approximate the type used by us, I thought it only equitable to consign this one Mint crucible at Government expense. It was returned us at the expense of the Dixon people.

Sir:

As per your telegraphic instruction, on the 8th instant I shipped $50,000.00 in new halves to the Federal Reserve Bank at New York City and $25,000.00, same denomination, to the Federal Reserve Bank, Boston, Massachusetts, via, parcels post, registered, insured. The locks on each mail pouch were supplied by the post office and attached by them in the presence of our Cashier.

On the 11th instant I received a wire from the Federal Reserve Bank at New York, advising a shortage of twenty seven (27) pieces, or thirteen dollars and fifty cents ($13.50) in one (1) sack of half dollars. I replied by wire, that all of the sacks left here intact; that they had been recently weighed and contents verified by a Settlement Commission, and that if any sack had been torn in transit, the missing pieces should have been found in the mail pouch.

I quote from letter of December 11th from the Federal Reserve Bank of New York:

> " The pouch in which this particular bag was enclosed was thoroughly examined to ascertain if by chance any of the pieces had slipped through the opening, but none was discovered, and we would therefore thank you to send us your check in reimbursement of this claim."

I am enclosing a copy of my reply to this letter from the Federal Reserve Bank of New York, and will hold, subject to your order, the mutilated sack and Mint tag returned us from New York.

Mr. E. C. French, Manager,

Federal Reserve Bank,
NEW YORK CITY.

Sir:

I have to acknowledge the receipt this day of your letter of the 11th instant discussing a purported shortage of $19.50 in one (1) sack of half dollars included in a shipment of $50,000.00, made by this institution to you on the 8th instant.

Your letter encloses the mutilated sack in which this shortage is said to have occurred and the Mint tag attached to said sack.

I would say, that this coin was delivered by our Coining Department and placed in storage January the 10th, 1921, and therefore these sacks were weighed and verified by the Annual Settlement Committees of June, 1921, and June, 1922. The sacks sent you were thoroughly intact when placed in the post office pouches at this Mint, and any mutilation of a sack en route to the extent of the mutilation evidenced in the bag you return would necessarily have resulted in a large number of half dollars spilling into the mail pouch, and they should have been found in the pouch. This mutilation has every appearance of a knife cut, - the edges of the duck being remarkably uniform, an impossible incident in our experience with an ordinary tear.

Touching your request for re-imbursement by this institution, of the shortage claimed, you are advised that none will be made, but that this shipment, as usual, was insured with Delaney & Delaney, No. 2, Wall Street, New York City.

I am sending a copy of this letter to the Director of the Mint and Treasurer of the United States at Washington, D. C.

At ten thirty this morning Federal Reserve Bank Denver automobile called at Mint to get ten packages Federal Reserve notes fives amounting in all to two hundred thousand dollars

Just as they got the money in the automobile in frontof the Mint a machine drove up and ordered the guards to throw up their hands

One of the Federal Reserve guards was shot probably fatally and in the melee the robbers got away with the money

The Mint guards and clerks fired about thirty shots at the bandits automobile as they left and we think one man was wounded

The Federal Reserve guards and bandits were in such position it was hard for our men to shoot from the windows on account of not being able to distinguish one man from the other

The number of the car was gotten and the police department were on the trail inside of two minutes

No results so far

The front door of the Mint was all shot full of holes by the bandits trying to keep our men in the building

Will advise if bandits are captured

Respectfully,

Superintendent.

January 23rd,1923.

The Director of the Mint,
Washington, D.C.

Sir:-

Referring to your letter of the 20th instant, I would state that my recommendation of the 17th that Peter P.Karpen be given the increased compensation, or bonus, was made under the authority of the concluding sentence of paragraph two of your circular letter of January 11th which stated that such recommendations would be received by the Bureau but no payments of the increased compensation were to be made to such new employees unless and until specific authorization therefor has been given.

Mr. Karpen was not paid the bonus nor was it my intention that he should be until such time as your authorization of same might be received.

Respectfully,

Superintendent.

January 25th,1923.

The Director of the Mint,
Washington, D.C.

Sir:-

Charge U.S.Mint at Denver.

January 31st, 1923.

The Director of the Mint,
Washington, D.C.

Sir:-

In accordance with the Budget requirements, I have to advise that the following disbursements have been made by me during the month of January, 1923:

Salaries of Officers and Clerks,	$ 5,601.50
Wages of Workmen,	22,549.98
Contingent Expenses,	10,776.96
Do Public Moneys,	217.90
Total,	$ 39,146.34

Respectfully,

Superintendent.

February 1st, 1923.

The Director of the Mint,
Washington, D.C.

Sir:-

Referring to your inquiry of the 29th ultimo, you are advised that Samuel L. Davidson, laborer, was dropped from our rolls August 12th,1922, he having exhausted both sick and annual leave and the Department was so advised.

I have since been informed by the Employees Compensation Commission that it had taken him up from the date of his separation here and remitted him such amounts as its provisions permitted. I do not know if these payments still continue nor have I heard anything as to Mr.Davidson or his whereabouts for a long time. Perhaps I should add that his services at the mint for a considerable time before he left were very unsatisfactory.

Respectfully,

Superintendent.

February 5th, 1923.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to enclose the official bond of Peter H. Kurpen executed in the penal sum of $3,000 and bearing date of February 2nd, 1923. Premium receipt attached.

I also enclose premium receipt, in amount $4.05, on the official bond of Karl G. Bell.

Respectfully,

Superintendent.

Superintendent.

February 8th, 1923.

The Director of the Mint,
Washington, D.C.

Sir:-

Through an oversight on January 25th, in asking $1200 increased compensation allowed for month of February, we are about $200 short of bonus money to meet the full February payments. The fact was overlooked that some $300 bonus money was to be returned at the close of January.

I will thank you to arrange an additional credit of $200 increased compensation allowed so that same shall reach me in time for the February 28th payroll.

Respectfully,

Superintendent.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to enclose the resignation of J.M.Steele, temporary helper at this institution, which I have accepted to take effect at the close of business on the 10th instant.

Respectfully,

Superintendent.

1 enc.

For some months I have found it necessary to have R. L. Burris, fireman in charge, and George J. Bucher, helper, to work about four (4) hours each daily overtime and the regular eight hours on Sundays and four (4) hours additional overtime that day, all of which Sunday work is carried under the Overtime Classification, for the reason, that I have been short of a third experienced boiler man, and these two have had to cover the work of the customary three. This necessity will end with the current month.

In re C.D. #684, the total melting charges of $7.60 were arrived at by levying charges respectively of $1.00, $1.00, and $1.10 on Assay Numbers 6462-3-4, as these were separate lots, while a total melting charge of $4.50 was levied against the one (1) lot made up of Assay Numbers 6465-6-7-8.

The total melting charges of $6.90 for C.D. #715 were arrived at as follows:

Assay Numbers 6789-90-91-92-93 were separate lots and respectively charged $1.20, $1.10, $1.10, $1.10, $1.00, while

Assay Numbers 6794-5 -------- were one (1) lot and charged as such $1.40.

Adjustment of $1.00 will be made in the accounts of the current quarter for parting and refining charges, as you suggest.

The discrepancies noted by you in Assay Numbers between the Assay Reports and Abstract Sheets were due to a clerical error of 100 in the Receiving Room, which was afterwards found and corrected on the records there and Assay Reports but, evidently, overlooked on the Abstract Sheets.

Touching the sale of certain old machinery to The Colorado Iron & Metal Company, you are advised, that the contractor removed this plant in the specified time and according to contract, but some small replacements that I deemed essential and proper for the contractor to undertake, are now going forward and upon completion the formal advice will be forwarded.

Respectfully,

R.J.Grant

Sir:

Referring to your letter of the 13th instant, returning Form 474-A, covering U. S. coin received for melting during the quarter ended Dec. 31, 1922, I would state, that the figures supplied on this Form as to transfer value, loss over transfer value, and loss over face value are those supplied by the Bookkeeper from his Form 474-B, and show the shortage deducted from the transfer value of recoinage, charged back to Bullion Fund and then transferred to Bank. The Bureau's pencil notations deduct the shortage charged back to Bank from the face value of the coin. The differences are, evidently, due to different methods in treating the transaction.

Respectfully,

R. J. Grant
Superintendent

Note returned herewith.

Superintendent.

March 8th,1923.

The Director of the Mint,
Washington, D.C.

Sir:-

Referring to the blank form of bond recently forwarded by you for execution by Lon Williams,in amount $1,000, I have to say that this bond was delivered to him but he lost same before having it executed and I have therefore to request that another form be forwarded to replace same.

Respectfully,

Superintendent.

March 8th, 1923.

The Director of the Mint,

Respectfully,

Superintendent.

March 14th, 1923.

The Director of the Mint,
Washington, D.C.

Sir-

Referring to my recent requisition to meet the expenditures of this institution for the current month, I had thought it would be possible to dispense with the services of practically all the temporary employees by the 20th instant, but I now find that it will be necessary to retain most of them until the end of this month to clean up all work on the silver coinage and I have therefore to request that in addition to the amount already requested and forwarded for wages, $350.00 be furnished me to meet this expense.

Respectfully,

Superintendent.

March 26th,1923.

The Director of the Mint,
Washington, D.C.

Sir:-

To enable me to meet the expenditures of this institution for the month ending April 30th,1923, I have to request that you will cause a requisition to be drawn upon the Secretary of the Treasury against the appropriations for the support of this institution for the fiscal year ending June 30th,1923,in the following amounts with which I am to be held accountable under my bond dated June 13th,1921:

Salaries of Officers and Clerks,	$ 3,600.00
Wages of Workmen,	7,700.00
Increased compensation allowed,	1,500.00
Contingent Expenses,	2,000.00
Total,	$14,800.00

Respectfully,

Superintendent.

All of the above were dropped without prejudice.

Respectfully,

Superintendent.

April 2nd,1923.

The Director of the Mint,
Washington, D.C.

Sir:-

Referring to your letter of the 29th ultimo (F), I find that the Account Current,as you say, did not carry C.D.'s Nos.65 and 66,the Bookkeeper stating that as the original payments so long preceded these repayments to the Contingent Appropriation,he concluded they were not properly pertinent to his account current for that quarter. In future,however, they will always be noted.

The water stills mentioned in C.D.No.66 were guaranteed for one year and some time after payment was made for them on the recommendation of the Assayer,they developed defects that could not be foreseen and therefore repayment was requested and secured.

Respectfully.

Superintendent.

April 3rd,1923.

The Director of the Mint,
Washington, D.C.

Sir:-

Referring to your letter of the 28th ultimo (F) discussing the feasibility of eliminating subclassification entries in the general bookkeeping of the mints,and depending upon the several departments' records for this detailed information - I wish to express my hearty approval of the contemplated change.

As you say,this differentiated information originates in the departments themselves and can always be had upon request when needed.

1921. 76 days without pay.

Respectfully,

Superintendent.

May 4th, 1923.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to advise that the following changes were made in the personnel of this institution during the month of April, 1923:

George Borstadt, Jr., melter at $5.00 per day, transferred to the United States Assay Office, New York City, April 7th.

H.M. Connors, temporary helper at $4.50 per day, dropped without prejudice, at close of April 14th.

Thomas Dunstone, do " 30th.

Respectfully,

Superintendent.

May 5th, 1923.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to recommend that Albert L.Guthner be appointed Machinist's Helper (qualified to adjust delicate scales) at this institution with compensation at the rate of $4.50 per day, effective from the 16th instant, and that he be given the increased compensation from July 1st, 1923.

Mr. Guthner has been employed here as a temporary helper to assist Mr. Moesmer, our scale repairer, and his name has been certified for this appointment by the Secretary of the 15th U.S. Civil Service District on Certificate No. 1222.

Respectfully,

Superintendent.

May 6th, 1923.

The Director of the Mint,
Washington, D.C.

Sir:-

I am enclosing blank form of bond for execution by Barnard V.Watson which was evidently forwarded to this institution by mistake.

Respectfully,

Superintendent.

Sir:

Owing to the absence of Messrs. Bowen and Malmstrom, of our Assay Department, who are in the East, I found it absolutely necessary to appoint

Mr. Hugh M. Connors

Temporary Humid Assayer and so advised you when his Oath was forwarded.

I find that I will require One Hundred and Fifty Dollars ($150.00) additional wage money to meet our June payroll. In this connection I would explain, that in July, 1922, the first month of the current fiscal year, I paid temporary helpers Four Hundred and Twenty-five dollars ($425.00) preparing ingots for Silver Dollar coinage, subsequently executed, but no account for this amount has ever been stated against the Special Fund as it was not thought any of this expenditure would be required to complete our year's payments.

Therefore, I am enclosing a voucher in amount $150.00, against the Special Fund and in favor of this institution, which I will thank you to put through the customary channels in time for the credit to reach me by June 20th.

to act as Assistant Assayer, and sign papers pertaining to the Assay Department during the absence of W. P. Bowen and O. C. Malmstrom, in the East, was intended as a recommendation of Mr. Hall's designation and was approved by myself as Superintendent and so forwarded.

The designation was necessary so that in the temporary absence of Mr. Moynahan some one should have authority to sign for him and for the further reason, that the regular Assay Certificate covering bullion deposits requires the signature of both the Assayer and an Assistant Assayer.

Respectfully,

Sir:

I have to advise you of the death, last evening, at St. Luke's Hospital this City, of

Thomas P. Boutwell,

who for more than seventeen years has rendered efficient service as Foreman of our Annealing Room.

Major Boutwell's parents came to Colorado by ox team in the late fifties and he was born at Boulder, Colorado, in 1861. He was a Spanish-American War Veteran, a prominent member of the Sons of Colorado and of other Fraternal organizations.

The Mint Beneficial Association to-day handed the widow the usual two hundred dollars immediate aid provided by its Constitution.

Mr. Boutwell's funeral will, probably, occur on Saturday afternoon next and the Mint will be very largely represented.

He was a good man, patriotic and conscientious.

Sir:

Referring to your letter of the 28th instant advising that record was not made in my ordinary account current for the Quarter ended June 30, 1925, of accountable warrant Number 85,687, dated June 25, 1925, for $516.59 advanced under the appropriation Contingent Expenses, Public Moneys, to re-imburse the Denver Mint Contingent Appropriation on account of moneys used to pay for shipments of coin, I beg to say:

The certificate advising the number, date and amount of this warrant was dated June 27, 1925, and did not reach this institution until Monday, July 2d. Therefore, I submit same could not have been properly included in the account current for the final Quarter of the fiscal year 1925 as all the accounts were closed on June 30 for that year and detailed statements furnished the Settlement Officers.

I am taking the liberty, under this explanation, of returning the account current forwarded by you, without correction until this letter can have your consideration and reply.

Superintendent.

August 3rd,1923.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to enclose oath of office of George H. Spencer, clerk at this institution, bearing date of August 1st, 1923.

Respectfully,

Superintendent.

August 3rd, 1923.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to recommend that the designation and compensation of Francis M. Tucker be changed from helper at $4.50 per day to foreman of annealing at $5.50 per day - vice Thos. P. Boutwell, deceased - and that the same be effective from August 1st, 1923.

Mr. Tucker has been employed in the annealing room as Mr. Boutwell's chief assistant for a number of years and I consider him well qualified to receive this promotion.

Respectfully,

Superintendent.

August 3rd,1923.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to request that you will please have manufactured for the use of this institution fifteen (15) pairs of double eagle dies.

Respectfully,

Superintendent.

August 7, 1923.

The Director of the Mint,
Washington, D. C.

Sir:

Referring to your letter of the 10th ult. authorizing the purchase of a new Underwood typewriter, and advising that the exchange allowance for the old Remington should be $17.50. I enclose for your consideration and further advice in the matter a letter from the Underwood Company, Denver Agency, claiming that the allowance for the old Remington is $12.50, instead of $17.50.

Awaiting your reply, I remain

Respectfully,

Superintendent.

August 8, 1923.

The Director of the Mint,
Washington, D. C.

Sir:

Referring to the rather intemperate and exceedingly illogical communication of Cashier Ambrose of the Federal Reserve bank, San Francisco, enclosed with your forwarding notation of the 4th inst. on Treasurer's letter of the 1st inst., I beg to state;

This institution stands behind every sack of coin shipped by it as to count, whether the coin be of its own manufacture or, as in this instance, circulated coin of silver and minor denominations transferred from Federal Reserve banks and their branches. Without exception the hundreds of thousands value received from these banks in good, indifferent and bad condition were carefully counted at this Mint and in many cases required reclassification as to current, uncurrent and light-weight, which involved a high degree of care and very considerable labor.

The Mints have never been accustomed to seal or tag nickels or cents, and the only reason the sacks of $50 cents were sealed was because they were received here in that quantity and because of the unusual weight caution suggested our sealing them. They certainly required no tags to identify the shipper as the lead seal bore the impression "US Mint- Denver".

The $100 sacks of nickels were received by us in that quantity and every bag after count securely tied, and all bags of nickels and cents were marked as to quantity contained with a one inch broad face rubber stamp which Mr. Ambrose states was only "apparently" done with a rubber stamp.

I am very glad indeed that the $50,000. in quarters "seemed to be in proper shape" and would say that all silver was, of course, sealed and tagged and the $75,000. in halves lead sealed, of course, bore the reading of this Mint, as above stated.

The appropriations of this institution do not admit of new sacks being used to re-sack this character of coin, nor is it necessary, as a new sack was invariably supplied when the old bank sack evidenced any weakness. If this cashier is interested to know from what member bank these sacks of coin were shipped to the Reserve banks subsequently forwarding them to this Mint, the information was right at hand as practically every sack sent from here can be identified as to source from either the tag attached or the impression on the sack which bears the bank label. New sacks bear this Mint's stamp.

I am today shipping the Federal Reserve Bank, San Francisco, $50,000. in circulated halves, all lead sealed and identified, which, I indulge the hope, will meet the critical approval of Cashier Ambrose.

Respectfully,

Papers returned herewith.

The Bureau of Pensions,
c/o Director of the Mint,
Washington, D. C.

Sir:

I am enclosing application for payment of accumulated deductions (form 3-R 15) executed by Laura M. Boutwell, widow of Thomas P. Boutwell, late ~~Assayer~~ Foreman of Annealers at this institution.

Respectfully,

Superintendent.

August 15th, 1923.

The Director of the Mint,
Washington, D.C.

Sir:-

As requested in your letter of the 6th instant, I am enclosing estimates for the several appropriations for the support of this institution during the fiscal year 1925 and schedule of expenditures for the fiscal years 1923, 1924, and 1925, which I trust have been prepared in the manner desired by you.

Respectfully,

Superintendent.

August 15th,1923.

The Director of the Mint,

Sir:-

I have to recommend that George Koebel be appointed a temporary helper at this institution with compensation at the rate of $4.50 per day, effective from date of oath.

I have selected Mr. Koebel's name from the list of eligibles furnished me by the Secretary of the 18th U.S.Civil Service District.

Respectfully,

Superintendent.

August 16th,1923.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to recommend that George Borstadt,Jr.,who was transferred from this institution to the U.S.Assay Office, New York City on April 7th,1923,be transferred back to this mint as foreman of the refinery with compensation at the rate of $2,000 per annum,effective from date of oath.

Mr. Borstadt was previously employed in our refinery for a number of years and I believe he is competent to take charge of same.

Respectfully,

Superintendent.

August 17th,1923.

The Director of the Mint,
Washington, D.C.

Sir:-

Referring to my letters of June 29th and July 16th,1923, dropping R.E.Peirce from the rolls of this institution for unseemly conduct outside of office hours, I desire now - if it meets with your approval - to reinstate Mr. Peirce in his former position as skilled workman at $5.oo per day,from date of oath, for the following reasons:

Mr. Peirce's conduct and the discharge of his duties inside of the mint were always entirely satisfactory and his experience of many years in handling the silver cells in the refinery would make him a very desirable employe to put in charge of the silver cells when our refinery is started next month and would complete the necessary force to start its operations. I feel that his separation from the service for approximately a year has not only sufficiently punished him but has served as an adequate warning to other employees, and that under all the circumstances it is not only just but in the interest of the service that he be reinstated. I would therefore make the formal recommendation that he be re-employed,as stated, and trust the same will meet with your approval.

Respectfully,

Superintendent.

The Direc[illegible] of the Mint,
[illegible]ington, D.C.

Sir:-

Referring to your letter of the 30th ultimo (F) I beg to state:

1. The cr[illegible]e of W.C.Campbell,helper at $4.00 per diem,was erroneously [illegible] on payroll for 2nd half of June as 3-1/2 days; it should have been 3-1/2 days and the payment of $13.00 was correct.

2. I note your desire that the upper righthand corner of payroll form shall carry the payment less retirement deductions. Same will hereafter be done.

3. In re voucher No.227,April Contingent Account,I enclose copy of Bureau telegram authorizing the purchase of a Brussels ingrain carpet to cost $180.00.

4. Deposit No.456-1 from Mogollon Mines Company was only a portion of the shipment received on April 9th,the balance being covered by deposit No.456-2;the melting charge was based on the weight of total shipment after melting which was 24,757.64 ounces, the total charge being $24.80 which was simply conveniently divided between the deposit parts by the abstract clerk.

5. I regret the illegible press copying of abstract sheets mentioned by you and care will be exercised to prevent the running of the ink in future copying.

6. [illegible] affidavits supporting sales of silver by the Tintic Mining [illegible] covered by deposit certificates 479 and 489 will be requested [illegible] as suggested by you.

7. As to the [illegible] account are an apparent difference of $4,400.00 [illegible] statement and my account current, you are correct in [illegible] but the [illegible] was already in the receiving fund. It [illegible] current therein as uncurrent,was reclassified as light [illegible] and the transfer slips should have been omitted.
